The Perfect Fit

Easy Handling:

- The ergonomic control panel is very user-friendly and enables a smooth and swift operation process.
- There is no need to remove surgical gloves, during operation.
- Strictly a HERMLE application, you can store up to 99 different programs.
- For fast centrifugation, there is a quick bottom option. The centrifuge spins, as long as you press the button.
- For re-assurance that your samples are finished, an acoustic signal will sound when the centrifugation is complete (this function can be deactivated).

Safety:

- The Z 36 HK has an automatic imbalance shut off system
- There is over speed protection incorporated for each rotor.
- You can only start the unit when the centrifuge lid is closed.
- In case of operation malfunction, an error code will appear on the display; this helps to indicate the reason for the malfunction and to eliminate it.
- Its' stable and firm design, made of massive steel, ensures excellent mechanical protection.
- For more safety, the Z 36 HK is equipped with a sturdy, motorized lid lock.

Efficient and Versatile:

- Due to the wide range of adapter and rotor options, the Z 36 HK can hold all common tubes and bottles, up to 250 ml.
- Profit from our "pre-cooling" function, cool down the rotor rapidly to your desired temperature. For this, the centrifuge automatically determines the necessary speed for each individual rotor.
- The powerful motor accelerates in a very short time up to 30,000 rpm, which generates an rcf-value of over 65,000 xg!
- With the timer function, you can program the desired time for the end or start of the centrifugation.
